EDUCATION

**B.Tech in AI & Data Science at
Priyadarshini College of Engineering**
2023-2027
Current CGPA: 8.34

**Higher Secondary (12th) J.N. Tata
Parsi Junior College, Nagpur**
Year of Passing: 2023
Score: 61.50%

**Secondary School (10th) Shahu's
Garden High School, Nagpur**
Year of Passing: 2021
Score: 81.60%

SUMMARY

Final-year B.Tech student in Artificial Intelligence & Data Science with hands-on experience in data manipulation, Python, data visualization, and AI/ML projects. Experienced in working with datasets, data preprocessing, and developing practical data-driven solutions. Strong analytical and problem-solving skills with a keen interest in data analytics and extracting meaningful insights from data.

WORK EXPERIENCE

■ Intern at I-Hub for Robotics & Autonomous Systems Innovation Foundation - ArtPark

17 Nov 2025 - 15 May 2026

- Worked with MRI datasets, image annotation metadata, data organization, and preprocessing workflows as part of an AI-based healthcare project.

SKILLS

- **Data & Analytics:** Data Manipulation, Python, Data Visualization, Data Reporting
- **Programming:** Python, SQL, C, JavaScript
- **Data Tools:** Excel, Power BI, Pandas, NumPy, Matplotlib, Seaborn
- **Database:** SQL, MongoDB
- **AI/ML:** Machine Learning, Deep Learning, Computer Vision
- **Web & Tools:** HTML, CSS, React, FastAPI, Git, GitHub, VS Code
- **Soft Skills:** Analytical Thinking, Problem Solving, Communication, Quick Learning

PROJECTS

- **Pet Breed Detection – PawSense** – Developed an AI-based pet breed detection system using transfer learning and image classification to identify dog and cat breeds from uploaded images.
- **AI-Powered Tic Tac Toe** – Built a Python Tkinter game with an AI opponent using the Minimax algorithm and multiple difficulty levels.
- **Rule-Based Chatbot** – Developed a Python chatbot using keyword-based logic to process user inputs and identify basic user intent.
- **Image Caption Recommendation System** – Implemented a BLIP-based image-captioning workflow in Google Colab to generate captions and descriptive text.
- **Full-Stack Web Projects** – Developed responsive web applications using HTML, CSS, JavaScript, and backend technologies, focusing on functionality and user experience.
